**Explain in 4-5 Sentences why you connected with this essays and enjoyed it the most:**

One of the essays that I enjoyed the most and connected to personally was Warren Buffet's philosophy about how to treat your body. Specifically, Buffet explains that if you had a car that you received at 16 years old and you knew that you would have it for the rest of your life, you would treat it very well. He then explained that we do not treat our bodies in the same way as we would the car even though it is the same situation. I connected with this because in my life there have been times when I haven't always thought of my body that way. For instance, when I went skiing last winter, I went off some pretty risky jumps. If I would have considered Warren Buffet's philosophy beforehand, I probably would have been more cautious. So, overall, it was a pretty straightforward, but impactful essay and I connected to the message.
